

SMALL GROUP TRAINING

Speaking activity

TEACH fellow students how to do something

Think of a “process” you could teach fellow students

eg: *how to save someone who’s choking, how to whistle with 2 fingers, how to use Instagram...*

1. Use wordreference.com to prepare a list of key words or phrases you are going to need for your explanations & check the pronunciation:

Key words or phrases	Pronunciation notes

2. To make your presentation more attractive and easier to understand, choose an object you will bring to use in your demo next week.

(!) If you cannot bring your object into class, make a video of yourself using it, or bring a video to comment on.

----- The following week -----

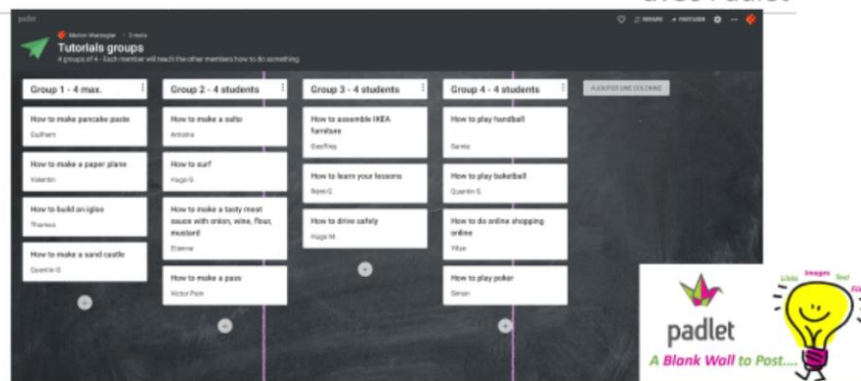

3. Your teacher will divide the class into groups of 3-4 students.
Take turns to present your process to the other students in your group.
